Pooled-spaxel [N II] intrinsic dispersion distributions by R/R_e
Each spatial bin normalized separately
Pre-peak
Close-to-peak
Post-peak
$0 \le R/R_e < 0.5$
$0.5 \le R/R_e < 1$
$1 \le R/R_e \le 1.5$
$R/R_e > 1.5$
